

De la CroiX Bio

Originally based in the “Cowboy Capital of the World,” Oakdale, CA. De la CroiX is a family band of full time traveling Musicianaries. Comprised of Tim, Danielle, Dylan, Cyrus and Sydney Fontaine, their music has been described as an eclectic blend, pulling from each individual's diverse musical taste and background, melding into the Americana genre with a specific lyrical goal in mind; to bring a message of hope and to challenge the individual to pursue their personal, God-given commission in life.

Their first full length album, released in 2011, followed by 2 EP's and are currently writing for their second full length album. Their true passion however, lies in playing live concerts. Their events appeal to young and old alike, combining a mixture of music, humor, audience participation and an amazing testimony of how God called this family from full time church ministry, to giving up all they owned to take their music on the road. Many have given their lives to Christ at these events and many believers have been challenged and encouraged to seek out their God-given calling and walk in it, boldly, to advance the kingdom.

Since their inception in early 2010, de la CroiX has traveled thousands of miles, playing hundreds of shows at churches and events ranging from youth gatherings and camps to festivals, and benefits. They have done multiple showcases for industry professionals in Nashville, creating a buzz with their dynamic sound and intriguing hundreds with their story of enduring faith in Christ as they navigate life as a family on the road. They've taken the stage at Spirit West Coast, which was the largest Christian music festival west of the Rockies, headlined three national tours, and were recently selected to perform at the 2016 Christian Country Expo in Pigeon Forge TN where they were also a top 5 nominee for the “Sunrise Group of the Year” at the 2016 Diamond Awards. Currently they are working with a major Nashville music company to release their first song to national and global radio.

Regardless of the opportunities de la CroiX has received, they agree as a collective that their passion is to be in churches, big and small, inviting unbelievers to step into the most important relationship of their life and challenging those who do believe, that God has a plan for each of us if we are willing to courageously step into it.
